The Akron Aquarium will be located in the center of downtown Akron, Ohio. Chermayeff, Sollogub & Poole have designed the aquarium to be a landmark and cornerstone of the major urban revitalization mixed use master plan. The plan is focused around a central urban waterway which ultimately links with Lake Erie. The waterway will be lined with shops, restaurants, offices, hotels and a renovation of Akron's historic performing arts theater. The Aquarium will include a major world class ocean tank, multiple focus tanks, interpretive exhibits, aquarium shop and visitor services. The aquarium design is planned for future phasing and expansion.

Opening planned for 2008.
